The Just Add Mustard Deli is a solution for local businesses in search of a charitable, non-profit organization to contribute to on an on-going basis, knowing that their contribution is going to make a difference in the community.

With the support and guidance of The Mustard Seed, Just Add Mustard Deli is a donation-based initiative whose sole purpose is to generate donations which will contribute to additional resources such as employment training, housing, mental health and addiction services.

To show appreciation to the contributing locations, Just Add Mustard Deli will deliver a signature lunch package for the employees at the participating location.
